LALJI FOUNDATION

Committed to Community Development,

Community development – shallow well project report (006)

Mambegwa village, Kilosa District- Morogoro region,

Date: 27th Dec, 2025

Venue: Mambegwa - Morogoro

1. EXECUTIVE SUMMARY

The Lalji Foundation is a registered non-governmental organization (NGO) established in Tanzania by the Lalji family. Founded with a deep commitment to social good, the Foundation seeks to uplift vulnerable communities and improve the quality of life across multiple regions of the country, such as Education, Health, women's empowerment, community development and orphans

Mambegwa Village is a rural community within Kilosa District, where the majority of our people depend on agriculture and small-scale economic activities for their livelihoods. Like many rural villages, we face several development challenges, particularly in access to clean and safe water, education infrastructure, and health services. These challenges directly affect the wellbeing of our children, women, and the elderly.

Mr Khamis Yahya, LALJI FOUNDATION representative, reaffirmed its commitment to continue partnering with the government and communities to support development projects in areas with the greatest need. He emphasized the Foundation's dedication to expanding projects in water, Health and education

Mr Balele John, chairman of Mambegwa, expressed deep gratitude to the Lalji Foundation for their continued commitment to improving the lives of vulnerable communities in Tanzania. The work in areas such as clean water, education, health, and community empowerment has brought real and lasting change to many villages across the country.

2. PROJECT OBJECTIVES

- To provide reliable and safe water sources for households in Mambegwa Village through the construction of a shallow well, thereby reducing water-borne diseases.

- To minimize the time and physical effort spent by women and children traveling long distances in search of water, allowing more time for education and productive activities
- To enhance public health by encouraging the use of clean water, improved sanitation practices, and hygiene awareness within the village
- To involve village leaders and community members in planning, implementation, and management of the project to ensure sustainability and accountability.
- To contribute to long-term socio-economic development by ensuring water availability for domestic use, small-scale farming, and income-generating activities.
- To foster collaboration between Mambegwa Village, Lalji Foundation, and local government authorities for effective and sustainable development interventions.

3. EVENT OVERVIEW

Parameter	Details
Location:	Mambegwa village, Kilosa District - Morogoro
Preparation Date:	from 28 th November to 27 th December 2025
Handover Date:	27 th December 2025
Target Group:	Community – rural areas
Organized by LALJI FOUNDATION.	

4. PARTNERS & STAKEHOLDERS

S/N	Partner/ Stakeholders	Role/ Contribution
1.	LALJI FOUNDATION	PROJECT

5. OUTCOMES & IMPACT

SN	Key Indicators	Number of Beneficiaries
1.	Beneficiaries	8,805
6.	Total	8,805

6. BUDGET & EXPENDITURE

SN	ITEMS	BUDGETED (TZS)	BUDGET EXPENDITURE
1	Shallow well	5,000,000	4,000,000
2	Transport + survey		430,000
3	Media + photographer		100,000
	TOTAL		4,530,000

7. IMPACT OF THE PROJECT ON THE COMMUNITY.

- The project will provide a reliable source of clean and safe water for households in Mambegwa Village, significantly reducing dependence on unsafe water sources such as rivers and ponds.
- Access to clean water will lead to a decrease in illnesses such as diarrhea, cholera, and typhoid, improving overall community health and reducing medical expenses.

- Women and children will spend less time fetching water from distant sources, allowing children to attend school regularly and women to engage in productive and income-generating activities.
- With reduced household water responsibilities, children, especially girls will have more time and energy for education, leading to improved attendance and academic performance.
- The availability of clean water will promote better hygiene behaviors, including handwashing and cleanliness at household and community levels.
- Community involvement in the project will foster a sense of ownership, responsibility, and cooperation among residents, strengthening local leadership and social cohesion.
- Reliable water access will support small-scale farming, livestock care, and micro-business activities, contributing to increased household incomes.
- Proper management and maintenance of the water facility will ensure long-term benefits for current and future generations, enhancing community resilience to drought and climate variability.

8. CHALLENGES ENCOUNTERED

Some challenges during implementation included:

- Limited Access to Clean and Safe Water (Before the Project)
- Long Distances to Fetch Water
- Seasonal Water Shortages
- Limited Health and Sanitation Facilities
- Economic Constraints

9. MEDIA COVERAGE

SN	Platform	Details	Type
1.	Television	<ul style="list-style-type: none">▪ IBN TV,	Events news features
2.	Social Media	<ul style="list-style-type: none">▪ Instagram▪ Facebook▪ WhatsApp group	

10. CONCLUSION

The **Lalji Foundation's** proven commitment to community development, clean water initiatives, and social empowerment makes it a highly suitable partner for this intervention. With strong community participation and effective leadership at the village level, the project has high potential for long-term sustainability and meaningful impact.

Lalji Foundation to continue with more shallow well projects in the villages of Tanzania.

KISIMA.

Reja Kichwa cho habari hapo juu.

Wananchi wa Kitongoji cha Makuluwili, wanatoa shukurani
baada ya kuchimbiwa kisima katika Kitongoji chao. Wanasema
kawana cho kuwapa Shirika hili la LALJI FOUNDATION, cho
Mungu atawabariki juu ya kuwapatia kisima cho bomba na
kupatiwa maji safi na Salama. Wananchi wanasema Kitongoji
hichi kina uhaba wa maji safi na Salama. Pia wanaomba
kuongezea visimo vingine katika Kitongoji chetu. Sababu
Kitongoji chetu ni kikubwa na kina wanchi wengi ili kupea
maji kwa ya kuhanisha (kipindu-pindu).

Ahsante.
