Committed to Community Development,

Community development – shallow well project report (012)

KIJIJI – MAMOYO – KATA – MABWEREBWERE – WILAYA –

KILOSA – KITONGOJI – MNAZI MOJA SHALLOW WELL

Date: 5th July, 2026

Venue: Mamoyo – Morogoro

1. EXECUTIVE SUMMARY

The Lalji Foundation is a charitable organization based in Tanzania that is dedicated to improving the lives of vulnerable and underserved communities through sustainable social development initiatives. Founded by the Lalji family, the Foundation focuses on creating long-term impact in areas such as education, healthcare, clean water access, community development, women empowerment, and support for orphans and families in need.

Through its humanitarian programs, the Foundation has implemented projects including boreholes and shallow wells, school support initiatives, medical assistance, food distribution, and economic empowerment activities across different regions of Tanzania. Guided by compassion, unity, and social responsibility, the Lalji Foundation works closely with communities and development partners to bring hope, dignity, and opportunity to those most in need.

Mamoyo Village is one of the rural communities found in Kilosa District, an area known for its rich agricultural activities, cultural diversity, and growing rural development initiatives.

Historically, the people of Kilosa District have depended mainly on agriculture and livestock keeping as their primary economic activities. Communities in the area cultivate crops such as maize, rice, cassava, beans, sunflower, and vegetables, while some residents engage in cattle keeping and small-scale trade.

The Lalji Foundation, through this donation from **ALNASHIR JIWA** family of **VANCOUVER, CANADA, DUBAI (UAE)**, has constructed this shallow well in Mamoyo Village, Kilosa District, Morogoro Region, as part of its ongoing commitment to improving access to clean and safe water for underserved rural communities in Tanzania.

This important initiative aims to reduce water shortages, improve sanitation and hygiene, and protect residents from waterborne diseases.

For many families in Mamoyo Village, access to reliable clean water has been a major challenge, especially for women and children who often travel long distances in search of water. The newly donated shallow well will help ease this burden by providing a sustainable and accessible source of safe water for daily domestic use.

Hamisi Yahya, **Lalji Foundation** Representative, reaffirmed the Foundations commitment to working with various partners to deliver essential services to communities, particularly those in greatest need.

He emphasized that access to clean water is fundamental to both health and development, and encouraged residents to take good care of the well so that it can continue serving the community for many years to come.

Hidaya Mussa Mnemo, village chairman, expressed deep gratitude to the **Lalji Foundation** for its continued commitment to improving the lives of vulnerable communities in Tanzania.

The work in areas such as clean water, education, health, and community empowerment has brought real and lasting change to many villages across the country.

2. PROJECT OBJECTIVES

- Provide clean, safe water for daily domestic use to all residents of MamoyoVillage.
- Reduce the distance and time women and children spend collecting water.
- Improve health and sanitation by lowering the incidence of waterborne diseases.
- Enhance living conditions and overall community wellbeing through reliable water access.
- Promote sustainable rural development by expanding access to essential social services.
- Support schoolchildren and families by ensuring convenient, consistent availability of clean water.
- Strengthen community ownership and capacity for proper maintenance to ensure long-term functionality.
- Contribute to the Lalji Foundation's mission of raising quality of life for underserved communities across Tanzania.

3. EVENT OVERVIEW

Parameter	Details
Location	Kijiji- Mamoyo- kata Mabwerebwere – Wilaya – kilosa-kitongoji – Mnazi moja
Preparation Date	From 1 st june to 30 th june 2026
Handover Date	5 th july 2026
Target Group:	Community – rural areas
Organized by:	Mamoyo village council

4. PARTNERS & STAKEHOLDERS

S/N	Partner/ Stakeholders	Role/ Contribution
1.	LALJI FOUNDATION	PROJECT
2.	ALNASHIR JIWA & FAMILY. VANCOUVER, CANADA, DUBAI (UAE)	DONOR
3.	MR ALNOOR VERSI	DONOR REPRESENTATIVE

5. OUTCOMES & IMPACT

SN	Key Indicators	Number of Beneficiaries
1.	Beneficiaries	500
6.	Total	500

6. BUDGET & EXPENDITURE

SN	ITEMS	BUDGETED (TZS)	EXPENDITURE
1	. Shallow well	5,000,000	4,000,000
2	. Transport + survey		483,000
3	. Media + photographer		100,000
	TOTAL		4,583,000

7. CHALLENGES IDENTIFIED

Challenges faced by villagers

- Limited Access to Clean and Safe Water (Before the Project)
- Long Distances to Fetch Water
- Seasonal Water Shortages
- Limited Health and Sanitation Facilities
- Economic Constraints

8. IMPACT OF THE PROJECT ON THE COMMUNITY

- Improved access to clean and safe water for households in Mamoyo Village.
- Reduction in waterborne diseases such as diarrhea, cholera, and typhoid due to the use of safer water sources.
- Decreased burden on women and children who previously traveled long distances to fetch water.
- Increased time for children to attend school regularly instead of spending hours searching for water.
- Improved hygiene and sanitation practices within households and the community.
- Enhanced health and overall wellbeing of community members through access to reliable clean water.
- Support for small-scale economic and agricultural activities that depend on water availability.
- Strengthened community unity and participation through shared responsibility in maintaining the shallow well.
- Improved living standards and hope for sustainable development within the village.

9. MEDIA COVERAGE

SN	Platform	Details	Type
1.	Television	▪ IBN TV,	Events news features
2.	Social Media	▪ Instagram ▪ Facebook ▪ WhatsApp group	

10. CONCLUSION

The shallow well project by Lalji Foundation in Mamoyo Village, Kilosa District, Morogoro Region, is an important step toward improving the lives of the community members through access to clean and safe water.

The project not only addresses the challenge of water scarcity but also contributes to better health, sanitation, education, and overall community wellbeing.

Lalji Foundation to continue with more shallow well projects in the villages of Tanzania
