LALJI FOUNDATION
Committed to Community Development,

Community development – shallow well project report (016)

Madoto Village – Ward - Madoto – District – Kilosa

Venue: Madoto – Morogoro

Date : 8th November 2026

1. EXECUTIVE SUMMARY

Lalji Foundation is an organization committed to improving the quality of life of communities across Tanzania through sustainable development initiatives and humanitarian support. The Foundation works towards building an inclusive society by empowering individuals and communities to become economically self-reliant through education, skills development, financial assistance and social support.

Through its various programmes, Lalji Foundation supports key sectors including education, healthcare, water and sanitation, economic empowerment, and community development. Its initiatives include providing school desks and educational materials to underserved schools, supporting medical treatments, sponsoring eye camps, distributing prosthetic limbs, empowering women through income-generating activities, and constructing boreholes and shallow wells in communities facing water shortages.

Madoto Village is located in Madoto Ward, Kilosa District, Morogoro Region, Tanzania. The area is part of the wider Kilosa District, which is situated in the eastern-central part of Tanzania. Madoto is among the rural communities where agriculture and livestock keeping contribute significantly to the livelihoods of residents.

The community comprises households engaged in farming and livestock-related activities, which provide important sources of food and income. Livestock keeping is also an important economic activity in the wider Madoto area, with pastoral and agropastoral communities forming part of its social and economic environment.

Mr. Khamis, Representative of Lalji Foundation emphasized that access to clean and safe water is a basic human necessity and an important foundation for improving community health and well-being. He said that Lalji Foundation was pleased to support the people of Madoto Village through the donation of a shallow well, which will help reduce the challenges residents face in accessing water for their daily needs.

Mr Said Kivunde, Village Chairman of Madoto, expressed his sincere appreciation to Lalji Foundation for supporting the shallow well project in the village. He stated that access to clean and safe water is essential for the well-being of the community and that the project would help address water access challenges faced by residents. He noted that the initiative would contribute to improved hygiene, sanitation, and living conditions, while reducing the burden of searching for water.

2. PROJECT OBJECTIVES

- To provide the community with a reliable and accessible source of clean and safe water for domestic use.
- To reduce the distance and time spent by women and children fetching water.
- To improve community health by reducing dependence on unsafe water sources.
- To promote proper hygiene and sanitation practices among community members.
- To reduce water-related challenges and improve the general living conditions of Madoto residents.
- To support agricultural and other household activities through improved water accessibility, where appropriate.
- To encourage community ownership and responsibility in maintaining the shallow well for long-term sustainability.
- To contribute to the overall social and economic development of Madoto Village.

3. EVENT OVERVIEW

Parameter	Details
Location	Village – Madoto - Ward – Madoto – District – Kilosa- Province – Cha CCM
Preparation Date	From 4th October to 8 November 2026
Handover Date	8th November 2026
Target Group:	Community – rural areas
Organized by:	Madoto Village Council

4. PARTNERS & STAKEHOLDERS

SN	Partner/stakeholders	ROLE / Contribution
1.	LALJI FOUNDATION	PROJECT
2.	MADOTO VILLAGERS	BENEFICIARIES
3.	JIVANI FAMILY	DONOR
4.	MR. ALNOOR VERSI	DONOR REPRESENTATIVE

5. OUTCOMES & IMPACT

SN	Key Indicators	Number of Beneficiaries
1.	Beneficiaries	500
6.	Total	500

6. BUDGET & EXPENDITURE

SN	ITEMS	BUDGETED (TZS)	EXPENDITURE
1	Shallow well	5,000,000	4,000,000
2	Transport + survey		460,000
3	Plaque		118,000
4	Media + photographer		50,000
5.	Miscellaneous		200,000
	TOTAL		**4,828,000**

7. CHALLENGES IDENTIFIED

- Health and sanitation concerns, inadequate access to safe water can make it difficult for households to maintain proper hygiene and sanitation, potentially increasing the risk of water-related illnesses.
- Financial constraints, Limited household resources may make it difficult for some residents to obtain water from alternative sources when nearby sources are unavailable.
- Maintenance and sustainability, without proper management, regular maintenance, and community participation, the shallow well may face operational challenges that affect its long-term usefulness.
- Limited access to clean and safe water, some households may experience difficulties obtaining sufficient water for domestic use, including cooking, cleaning, and personal hygiene.
- Long distances to water sources, residents may need to travel considerable distances to collect water, consuming time and energy that could be used for other productive activities.
- Time burden on women and children, water collection can place additional responsibilities on women and children, potentially affecting their household activities, education, and income-generating opportunitie

8. IMPACT OF THE PROJECT ON THE COMMUNITY

- Reduced time spent searching for water may allow residents to dedicate more time to farming, small businesses, education, and other productive activities.
- The project is expected to benefit children, older people, and individuals who may find it difficult to travel long distances to access water.
- The project demonstrates Lalji Foundation's commitment to addressing essential community needs and promoting sustainable development in rural areas.
- The project provides an opportunity for residents to work together in protecting and maintaining the water facility to ensure that it remains useful for future generations.
- The project is expected to provide residents with a more accessible source of water for their daily household needs, including cooking, cleaning, and washing.
- Increased access to water can help community members maintain personal hygiene, improve household cleanliness, and support better sanitation practices
- The availability of a nearby water source is expected to reduce the time and effort spent collecting water, particularly for women and children.
- Access to water can make daily household activities easier and contribute to the overall well-being of residents.

9. MEDIA COVERAGE

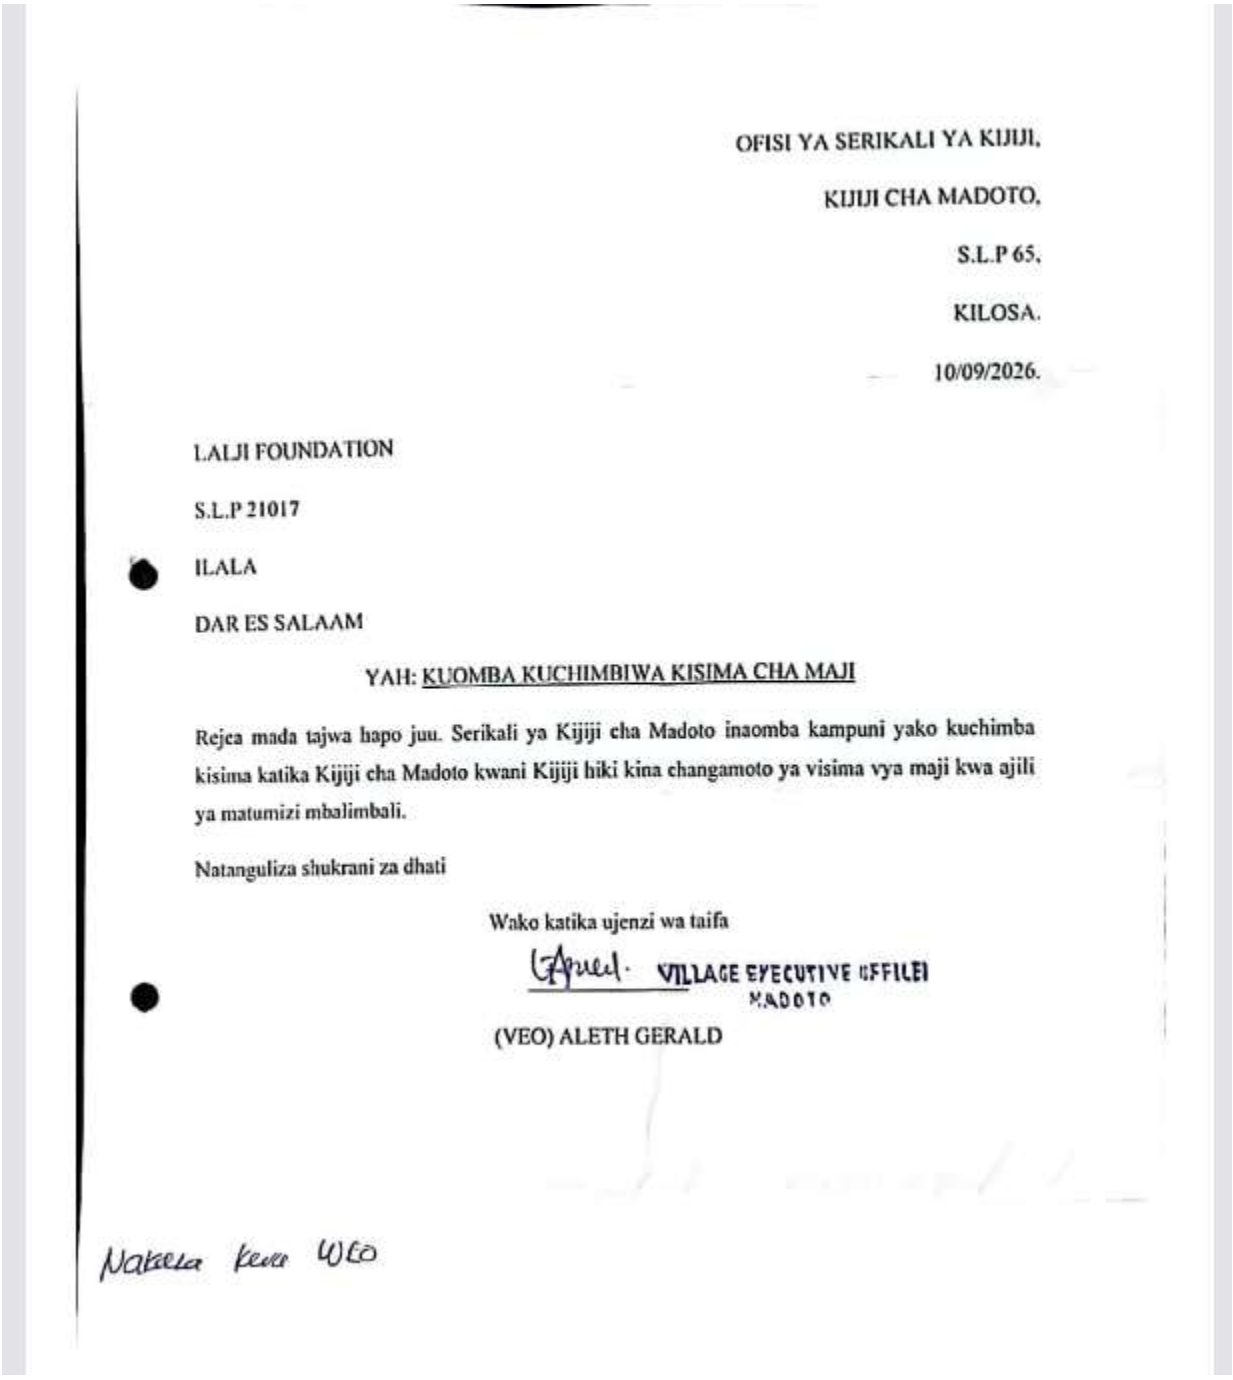

SN	Platform	Details	Type
1.	Television	▪ IBN TV,	Events news features
2.	Social Media	▪ Instagram ▪ Facebook ▪ WhatsApp group ▪ YouTube	

10. CONCLUSION

The shallow well project by Lalji Foundation in Madoto Village, Kilosa District, Morogoro Region, represents a significant contribution towards addressing the community's water challenges. Access to clean and safe water is essential for improving public health, promoting hygiene and supporting the daily activities of households. Through this initiative, Lalji Foundation has demonstrated its dedication to bringing positive change to communities by investing in projects that address basic human needs. The shallow well is expected to ease the burden of searching for water, particularly for women and children, while creating better opportunities for improved health and well-being.

Lalji Foundation to continue with more shallow well projects in the villages of Tanzania
